

Learning & Growth as an Strong SE

Building Profile

- Building Resume / Profile / Yourself
- Excel in current work.
- Retrospection.
- 100 % Genuine
- Networking
- Interpersonal Skills

Hands on Experience - Modern technologies - Projects

Cover breadth / depth of Technologies.
* LLD skills, Code Reviews, Production experience, any missing experience that your work experience missed to give you opportunity.
* You may need to do some groundwork - reading/ courses/trainings/ certifications with respect to project ; but think project first.
* Build with AI - reviews, make it production ready.
* Ensure Code is the way you would have written - use your brains. - Clean code & easy to understand and change later without AI.

Revision / Filling up the Gaps

DSA / Algorithmic or Computer fundamentals.
* Depends upon your level, and gaps with respect to that you will need to work accordingly here.

High Level System Design / Architecture

* If you know what can be applied, then only you can demonstrate in projects.

What Matters More

* Practical Demonstration matter more than ever.

* Leadership Skills : Authenticity, Learning attitude - Easy to collaborate and work with - Clear Communication, Receptive to feedback.

My Interview Preparation Strategy

My Interview preparation starts when the interview is actually scheduled.

Company which require more time to revise the past skills gives times accordingly.

* Google : On avg gives 1 month.

* Quick Review of what all things you have done.

* Interview Experiences, and company specific leadership principles.

* Keep Calm, and Positive attitude.

* Meta : 3 weeks.

Spend your Saturday's

~25 mins of retro

Retrospection
Building profile

~ 1 hour

Read Blogs

Remaining for projects

Build Something

25 mins of quick revision

If I feel there is any Gaps in some area -

DSA Weekly Planner

- Fixing Topic/Questions
 - Focussed on how to solve.
 - Learn and Prepare
 - Mock less time than actual interview
 - You can literally just scroll your mind and think which category it will fall O(7).

Day	Topic	Questions Covered	Top 10 Revision (Questions I had solved once)	Top 10 Hard (Unsolved)
1. Monday	Maths, DP, recursion and Backtracking, Bit Manipulation		386	
2. Tuesday	Sorting, Searching, Binary Search, Hashing, 2 Pointers, Divide & Conquer		164, 264, 315, 354, 395	
3. Wednesday	Stack, Queue, Priority Queue (Heap), LinkedList, Greedy			
4. Thrusday	Tree, Segment Tree, Trie		145, 222, 230, 297	99
5. Friday	Graphs, DSU			
6. Saturday	Advanced data structure & algos, Ordered Set, BIT, Suffix Array, Design			
7. Sunday	Miscellaneous		89,	

System Design Weekly Planner

Day	Questions	Resources
1. Monday	1. URL Shortner 2. Unique Id Generator 3. Rate Limiter 4. Web Crawler 5. Ticket Booking App 6. Notification System 7. Search autocomplete system 8. Ad Click Event Aggregator 9. News Aggregator	1. HI 2. AB 3. HI 4. HI 5. HI
2. Tuesday	1. DropBox/ Google Drive 2. Whatsapp 3. Youtube , Youtube Top K 4. Google Docs 5. Instagram 6. FB News Feed , FB Live comment , FB Post Search	1. HI 2. 3 4.HI 5. HI
3. Wednesday	1. Proximity Service / yelp 2. Uber / Uber eats 3. Tinder / NearBy Friends 4. Booking.com (Hotel Reservation) 5. Google Maps 6. Local delivery service	1. HI 2. HI 3. HI 4. HI 5. HI
4. Thrusday	1. Payment System 2. Digital Wallet 3. Stock Exchange / robinhood 4. Price Tracking Service 5. Fitness Tracking / strava 6. Online Auction 7. Metric Monitoring and alerting system 8. Realtime Gaming Leaderboard 9.Leetcode	1. HI 2. HI 3. HI 4. 5.
5. Friday	1. Distributed Message Queue 2. Distributed email service 3. Design S3 4. Key Value Store 5. Distributed Cache 6. Distributed Job Scheduler	1. HI 2. 3. HI 4. HI 5. HI 6. HI

- Time :
- 1. Depends on the Gap, Upcoming Interview requirements.
 - 2. How does it Helps?
 - * Daily I don't need to think about what to studu
 - * I have fixed target - that covers these.
 - I may be able to cover just 1 good in system design and move on.
 - * Always be ready - rather than ready after 6 month.
 - * One topic / blocker is not affecting the plan.
 - * we will see that in next week.
